

FRENCH TAKE ENEMY LINES ON LONG FRONT

Both Sides Make Gains in Champagne and Laon Sectors

GERMANS CAPTURE TRENCHES

Berlin War Office Asserts All Old Positions Were Recaptured, While Paris Says They Got Places in Only a Small Sector; English Planes Bomb German Lines.

There has been no realization of the intensity of the fighting between the French and the Germans on various sectors of the southern line in France, from the region of the Soissons eastward in the Champagne.

Victories are recorded for both sides—for the Germans along the Laon Soissons road in penetration and destruction of French trenches and in Champagne north of Mont Teton, where the forces of the crown prince previously had been repulsed with heavy casualties, and for the French in the Verdun sector where General Petain's forces in a mighty effort took enemy lines on a front of 1 1/2 miles to a depth of about two-thirds of a mile.

The success of the Germans north of Mont Teton was obtained through successive counter attacks. While the German war office asserts that all the old German war positions were recaptured, the Paris office declares that the troops of the crown prince only regained points in a small sector.

Intensive air fighting is still in progress in the region where the English and Germans are fighting. Six German machines were forced down and three others driven down out of control.

Paris, France, July 17.—A powerful attack by the French this morning on the left bank of the Meuse resulted in the capture of German positions on a front of more than 1 1/2 miles to a depth of about three-fourths mile. The war office statement announcing this gain says that the Germans offered an energetic defense, suffering heavy losses.

The official statement reads: "Our artillery was active in the region of Cerny, Ailles and the Califormie plateau.

"In the Champagne the enemy renewed his attack north of Mont Teton and regained a footing at certain points in trench elements captured on July 14. The artillery action continues violent in the sector of Mont Haut, where we organized the ground gained.

"On the left bank of the Meuse an operation carried out by us this morning developed a complete success for us. After strong artillery preparations our troops advanced to attack the enemy lines. Notwithstanding the energetic defense of the Germans we recaptured in a few minutes trenches which the enemy had occupied since June.

The entire first German line fell into our hands. A little later the second enemy line after a desperate engagement in which admirable valor was displayed by our soldiers was likewise conquered.

"The advance reached about one kilometer. Our line advances were carried forward on the southern end of the Avocourt wood as far as the western slope of hill 204, passing through Camargue woods.

Several counter attacks launched by the enemy in the course of the afternoon were quenched by our fire. The Germans suffered very heavy losses. The number of unwounded prisoners reached 125, of whom eight were officers.

Eastern theatre, July 16.—The enemy artillery during the night violently bombarded our trenches on the Vardar front. To the northwest of Monastir an enemy surprise attack against our positions at Terdena Stena was repulsed, after spirited grenade fighting.

Berlin, Germany, via London, England, July 17.—Today's official statement regarding operations on the Franco-Belgian front read:

Western front. Army of Crown Prince Rupprecht. On the coast the British attacked again at Lombardiere, after lively artillery firing lasting throughout the day. They were repulsed.

Along the front from Nordschoote to Wanton the fighting activities of the artillery increased to considerable strength. Along both banks of the Scheldt the artillery activity was lively.

British reconnoitering advances at Messines, Hulluch, Gavrelle, Bullecourt and north of St. Quentin failed.

Army group of the German Crown Prince. In the morning on the Laon-Soissons road, shock troops of a Hanoverian regiment, with pioneers, following a sudden burst of fire, penetrated the French line and blew up dugouts and trench mortars. They returned with numerous prisoners and machine guns.

At Courcoetes, a further portion of a French trench was captured by a surprise attack on Sunday night. The number of prisoners taken in this sector has increased to more than 450. Shortly before that the enemy opened a very heavy, spasmodic fire. The

enemy then launched against this front a strong attack with dense masses, which broke down without any result and with very heavy losses under our fire, and with hand to hand fighting.

"North of Rheims a fresh advance against the trenches—we captured south of the Bois-Sculans failed. Another attack was stopped by our defensive fire.

"At the Poehle mound, in the western Champagne, troops from Thurbia succeeded in bitter hand grenade battles in driving the French from the last portion of our old position.

"On the left bank of the Meuse (Verdun region) very violent artillery activity developed in the afternoon against hill 204. Our destructive fire on the French trenches prevented the enemy from attacking, and only a few men succeeded in leaving their trenches. This morning the artillery battle at this point again increased in intensity."

London, England, July 17.—The official report from British headquarters in France tonight reads: "We captured some prisoners and improved our position somewhat in the course of fighting early this morning east of Monchy-Le-Pieux.

"Although handicapped by thick clouds and strong winds our airplanes carried out a great deal of successful work yesterday in conjunction with the artillery. In addition our raiding machines dropped a large number of bombs on various military points behind the enemy lines.

"In the evening many fights took place in the air as a result of which six German airplanes were brought down, three others were driven down out of control. None of our machines missing."

Rome, Italy, via London, England, July 17.—British admiralty, per wireless.—The war office communication issued today says:

"On the second peak of the Colbricon we blew up with a mine important fortification works and saps which the enemy were preparing against our positions. About 20 enemy dead were found in the crater.

"Elsewhere there has been the usual artillery bombardment."

THERE IS A PLACE IN FRANCE LIKE AMERICA

AND IT IS WHERE OUR MEN ARE TRAINING FOR TRENCH WORK

American training camp in France, July 17, by the Associated Press.—The American troops have been here for less than a week—they are not all here by any means—and they have already made themselves thoroughly at home; so much so that this section of France looks like a little bit of America.

The men are fit and in good spirits and full of praise for the friendly cooperation of the French people, who have willingly and gladly given up many of their own comforts to accommodate the army.

The available houses, however, are not sufficient to accommodate all the Americans who have arrived, so the countryside is dotted with newly erected barracks that have sprung up during the night.

A task which the army has taken upon itself is the clearing up of the entire countryside, and at the present pace the whole district will soon look like a well ordered garden. Such prisoners as are under arrest for minor infractions of regulations are employed each morning in making headquarters spotless and are bringing such changes in the spot that the residents are amazed. Likewise the residents are amazed as to why the Americans take so many baths.

The presence of the soldiers here has probably introduced many novelties, but probably none is so attractive as the daily evening concerts, which attract the residents from miles around, who have not heard music since the soldiers went off to war.

How Bisbee Armed for the I. W. W.

PREPARING TO OUST I.W.W.

One of the scenes that preceded the deportation of hundreds of I. W. from the Arizona mining town of Bisbee. The agitators had little chance with these heavily armed and husky miners and were soon unwilling on their way across the desert.

SUFFS GO TO WORKHOUSE

Refuse to Pay Fine, Must Sew for Period of Sixty Days.

Washington, D. C., July 17.—Sixteen women suffragists, arrested while participating in the Woman's party Bastille day demonstration in front of the White House, were sentenced in police court today to serve 60 days in the District of Columbia workhouse for obstructing the sidewalks. The women were given the alternative of paying \$25 fines, but they promptly refused to pay them and were taken to the workhouse and turned over to a matron, who saw that each got a shower bath and exchanged her clothing for a heavy one-piece dress. Tomorrow they will be assigned to the sewing room of the prison to work seven hours a day.

SENATE CONTINUES TO DELAY FOOD MEASURE

DEFENCE COUNCIL CRITICISED WITH OTHER BODIES

Washington, D. C., July 17.—Sentiment in the senate toward compromising differences on the food control bill apparently crystallized today on a group of amendments drawn up at joint conferences of Democratic and Republican leaders while on the senate floor another day was spent in criticism of the defense council and other executive bodies.

Principal resolutions recommended by the leaders are for limitation for government control of food, feeds and fuels, including kerosene and gasoline, creation of a special board of food administration of three salaried commissioners instead of administration by an individual and fixing by congress of \$1 75 per bushel for No. 1 wheat.

Voting on these proposals and other amendments is expected to begin tomorrow. Among the first to come up probably will be that discussed today, restricting sale to the government of products in the defense council are personally interested. Many senators during the day's debate urged legislation prohibiting such government representatives selling their wares to the government.

"World old standards of honesty and ethics," declared Senator Johnson of California, Republican, "require that government representatives shall not serve in a dual capacity for themselves and for the government. Senator Townsend of Michigan, another Republican, warned that a host of vultures are flocking to Washington to secure war contracts and that the opportunity for graft, if not eliminated, might develop a public standing. Few contracts were the basis for criticism by Senator Kenyon of Iowa, who said men were using influence to get contracts.

During the day's debate Herbert C. Hoover, the food administrator, also was criticised by Senator Gore and warmly defended by Senator Chamberlain and Myers.

Senator Wheat attacked the shipping board and the fleet corporation for not hastening action on the shipping board program.

The amendment creating the board, as drafted by the leaders, provides:

"That the president is authorized and directed to appoint by and with the advice of the senate three commissioners with an annual salary of \$7,500 who shall constitute a board of food administration and who shall perform such duties in carrying out the purposes of this act as the president shall direct. One of said commissioners shall be a farmer actually engaged at the time of his appointment in the cultivation of the soil. The president shall designate the chairman of said body. Said commission shall hold office at the pleasure of the president during the continuance of the war."

CARSON JOINS WAR CABINET

Changes Made Because of Mr. Chamberlain's Resignation

OTHERS APPOINTED

Churchill Now Minister of Munitions; Opposition May Be Revived

London, England, July 17.—Sir Edward Carson has relinquished his post as first lord of the admiralty and joined the war cabinet without portfolio, according to an official announcement of new ministerial appointments. He is succeeded by Sir Eric Campbell Geddes, who has been director general of munitions supply.

Winston Spencer Churchill succeeds Dr. Christopher Addison as minister of munitions, Dr. Addison becoming a minister without portfolio.

Baron Montague of Beaulieu is made secretary for India. One of the most acceptable appointments as far as the general public is concerned is that of Mr. Montague. He is one of the very few members of the Asquith administration, in which he was minister of munitions, to join the Lloyd George ministry.

Mr. Montague has had considerable experience in the affairs of India, having once held the post of under secretary for India. Lately he has been in charge of a large committee exploring the ground for reconstruction after the war, and before the resignation of J. Austen Chamberlain as secretary to India was announced, it was generally supposed that Mr. Montague would finally become the minister for reconstruction.

The new cabinet appointments arising out of the resignation of Mr. Chamberlain and Andrew Bonar Law's desire to be relieved of his duties as a member of the small war cabinet, which he found incompatible with his heavy duties, first as chancellor of the exchequer and as leader of the floor in the house, contained two surprises, the appointment of Sir Edward Carson and Winston Spencer Churchill.

Much controversy had revolved for a long time past around the name of Mr. Churchill. It was stated some time ago that he would succeed Lord Cowdray as chairman of the air board, but the idea, evidently then contemplated by Premier Lloyd George, met with such strong opposition in influential quarters that the project had to be dropped. His appointment now as minister of munitions would undoubtedly lead to a revival of that opposition.

The new first lord of the admiralty, Sir Eric Geddes, is a railroad man, not a politician, which is not in accord with the general procedure.

The appointment of Sir Edward Carson to replace Mr. Bonar Law, is likely to create more uneasiness and stronger criticisms among the older liberals than any other appointment. The war cabinet now in practice consists of only four men. Of these four, Lord Curzon, Lord Milner, and Sir Edward Carson are all conservatives of the most extreme type and complaints constantly heard from the liberal and radical press of the undue preponderance of conservative influence of the government since Mr. Lloyd George took the helm, will now be intensified.

NINE HURT IN TROLLEY CRASH

Paterson, N. J., July 17.—Nine persons were injured when two trolleys crashed on the Singat trolley line this evening. Motorman Melville Polhemus, pinned in the wreckage for half an hour, is reported dying at a local hospital. Superintendent Stone of the public service railway said "Misunderstood signals" caused the crash. Passengers declared the motorman was trying to steal a switch. Motorman McHugh and seven passengers were more or less seriously injured.

GERMAN ESCAPES DETECTION

Man Who Looked After Marine End of Deutschland Arrives Home.

Baltimore, Md., July 17.—Captain Frederick Hinch, who handled the marine end in this country of the merchant submarine Deutschland on her voyage here, has escaped from American soil and is reported to have reached Germany safely. Friends here received word this week that he reached Germany four weeks ago.

Captain Hinch slipped out of South Amboy, N. J., shortly after the declaration of the war on a small sailing ship with a crew of three men. The vessel was of 240 tons.

The schooner is supposed to be the Wanda, a vessel which was purchased supposedly for Dutch interests several weeks before the declaration of war. Government men said that in buying the vessel the captain dealt through third parties.

SEVEN STATES REMAIN TO REPORT ON DRAFT

SENTIMENT SEEMS IN FAVOR OF MAKING ALIENS FIGHT

Washington, D. C., July 17.—All but seven of the states have reported completion of their local exemption machinery tonight, encouraging officials in their hope that drawing of lots to determine the order of liability under the selective conscription law may be held before the end of the week. Four states reported today.

Although no details have been revealed, it was learned tonight that the plan of the drawing to be held in Secretary Baker's office virtually had been completed.

Secretary Baker's final approval for the plan is yet to be given, but General Crowder revealed enough of the details to guide the newspapers in preparing to publish the results and to inform registrants what facts they must ascertain in order to know their exact position.

While these preparations are going forward, sentiment appears in favor of amending the conscription act so as to make aliens liable for service or otherwise to relieve the requirements placed under the present allotment upon communities with a large population. Bills to this end have been prepared both in the senate and the house, but the administration has not indicated that it will favor any of them.

The states from which reports of complete exemption arrangements were received today are Utah, Alabama, Ohio and Virginia. Reports still are to come from Illinois, Kentucky, Michigan, Mississippi, New York, Missouri and Pennsylvania.

Detailed plans of the drawing itself remain to be finally approved by Secretary Baker. A rehearsal of the process recommended was held some days ago in order to determine the amount of time necessary and to develop any weak spots in the scheme. There are indications that a more complex arrangement than has yet been outlined publicly will be employed in the drawing, in the interest of perfect fairness.

As far as known now, every registrant will have to be informed not only of the red number placed on his card, but also of the exact number of registrants in his district, so that he may figure out what place he occupies in the line as soon as the results of the lottery are completed. If there are 1,500 registered men, every serial number above that will be a blank if there are no more than 1,500 registrants in that district.

More than half of the 183 exemption boards in New York city had completed their preliminary work by 6 o'clock tonight and Roscoe S. Conklin, deputy attorney general, representing the adjutant general, announced that all the boards would have their work substantially finished by tomorrow. Captain S. S. Hutchinson reported that returns from 10 state boards were satisfactory.

TAKE MRS. MOONEY TO HOME

Jury Makes Trip of Inspection to Scene Involved in Trial.

San Francisco, Cal., July 17.—Under guard of deputy sheriffs the jury trying Mrs. Rena Mooney for murder, growing out of the bomb explosions here last July, made a trip of inspection today to the scene involved in the trial. Accompanying the jury were Mrs. Mooney, Superior Judge E. Sewell, and the attorneys representing the state and the defense.

After a lapse of nearly a year Mrs. Mooney again saw the apartment in which she and her husband, Thomas J. Mooney, resided at the time of the explosion. Mooney is now under death sentence for one of the bomb murders. Mrs. Mooney sobbed when the jurors were inspecting her library and other parts of the apartment.

At the conclusion of the cross examination of Mrs. Mooney early in the afternoon the defense rested its case. The state called a number of witnesses in rebuttal and Assistant District Attorney Lewis Ferrari announced that the state's rebuttal would be concluded tomorrow morning, when it was expected arguments would be started.

BUSINESS ASKED TO MAKE WAR PATRIOTIC

SAYS NATION HAS "BROOD OF TORIES AND JUNKERS"

Washington, D. C., July 17.—An appeal to the business world "to make the conduct of this war as clean and patriotic and self-sacrificing at home as in the trenches of France and Flanders" was issued today by Carl Vrooman, assistant secretary of agriculture.

"Never before have the business men of the nation shown as much patriotism as they have shown in the United States during the past three months," said Mr. Vrooman, in a formal statement. "Unfortunately, however, there have been exceptions to this rule. Only recently we have seen the secretary of the navy and the chairman of the shipping board forced into the arena in a hand to hand fight with an organization of unpatriotic, sordid steel magnates."

The secretary also said that "there is a pernicious brood of Tories, junkies and reactionaries in every large city in every state in this land. They belong to no one party. They bear the black flag of financial piracy and the yellow flag of economic treason. At every election from this time forth the liberals of all political parties should make common cause against the junker reactionaries. A political realignment is demanded with patriots whose motto is 'service to country,' arrayed in a solid phalanx against those unscrupulous, disloyal self-seekers."

CONSCRIPTION FIGHT MAY DELAY AVIATION

THIS IN SPITE OF URGENT NEED FOR BIG AIR PROGRAM

Washington, D. C., July 17.—Plans of the leaders of both parties in congress for quick action on the administration aviation bill providing a great program for striking at Germany through the air promised tonight to be blocked by a small group of senators, including LaFollette and Gronna, who are planning to reopen the question of conscription.

An agreement to meet at 10 o'clock tomorrow to take up the bill before the debate on the food bill was planned in the senate. That hope virtually was abandoned later, however, when the purpose of the measure's critics became apparent.

Sent to congress with the urgent request that consideration be expedited to avoid unnecessary delay in launching the program that officials say will turn the balance of power in the air against Germany, the bill was passed by the house last Saturday without a roll call and today was reported favorably by the senate committee.

It is understood that those who will object to passage tomorrow will direct their attack against the provision which empowers the president to draft men into the aviation service.

SAVE MANY MILES OF SERVICE.

New York, July 12.—Passenger trains aggregating 16,267,028 miles of service a year have been eliminated by the railroads of the country to facilitate transportation of freight for successful prosecution of the war, Fairfax Harrison, chairman of the railroad war board, announced tonight. This was done, Mr. Harrison pointed out, to save man power, fuel and motive power to be applied to the transportation of necessities. Cutting off this volume of passenger service, he asserted, would make available for other purposes over 1,120,000 tons of coal.

TO FORM RADIAL DIVISION.

Washington, D. C., July 17.—Creation of a radial division under the chief signal officer of the army to handle radio matters for both the aviation section and the signal corps proper was announced today by the war department. Major Nugent S. Slaughter, Reserve corps, is detailed to take charge.

REDFIELD ASKS PRATT TO RESIGN

Differences Said to Exist Between the Two Men

"FOR GOOD OF SERVICE"

Pratt Was Head of New Export Control Department; Statements Issued By Both Parties

Washington, D. C., July 17.—Dr. Edward E. Pratt, chief of the commerce department's bureau of foreign and domestic commerce, resigned tonight at the request of Secretary Redfield. No reason was announced, but it is known that differences have existed between Mr. Redfield and his assistant over the administration of the export control clause of the espionage act.

As chief of the bureau Dr. Pratt was in active charge of the operation of government control of exports which went into effect last Sunday morning. He had just organized and started working a division of export licenses with C. A. Richards, a New York exporter, as his assistant.

The following statement was issued by Dr. Pratt today on his resignation: "At the request of Secretary Redfield I have forwarded to President Wilson my resignation to take effect immediately. I would have regretted leaving the bureau of foreign and domestic commerce at any time but I particularly regret it at this time because of the war activities that have been placed in its care."

Dr. Pratt also sent the following letter to Secretary Redfield in answer to the request that he resign:

"In accordance with your request, I have transmitted to President Wilson my resignation as chief of the bureau of foreign and domestic commerce, to take effect immediately. I regret to leave the important work which has recently been entrusted to the bureau of foreign and domestic commerce, because I have looked upon it as an opportunity to serve my country. I want to take this occasion to express my sincere appreciation of the many courtesies you have extended to me during the past few years."

Secretary Redfield issued the following statement to the public as to the reason for the resignation of Dr. Pratt:

"While Dr. Pratt has many excellent qualities and much ability, it was deemed wise for administrative reasons and for the good of the service that a change be made. There will be no other readjustment in the service. The matter has been for some time under consideration."

BREACH IN SHIPPING NOT DRAWING CLOSER

DENMAN PUTS RESPONSIBILITY FOR DELAY TO GOETHALS

Washington, D. C., July 17.—Differences between Chairman Denman of the shipping board and Major General Goethals, manager of the board's fleet corporation, which have halted the government's ship building program, apparently were far from a settlement tonight.

General Goethals, who yesterday postponed his plan for constructing two government ship building plants and for requisitioning ships now building, made no move today for going ahead with his program. Nor would he add to his statement of last night that Mr. Denman has asked for delay.

Chairman Denman put the whole responsibility for the delay on General Goethals, who he charged was slow in furnishing information asked of him, and at the same time he made it clear that the shipping board, as holders of the stock in the fleet corporation, will study the program carefully before giving the program its approval.

Part of the information has been given, but more which the directors say is just as important has not been forthcoming yet.

Reports that General Goethals has been refused an immediate conference he requested with Mr. Denman to go over all the questions involved are not confirmed by the board.

MINER IDENTIFIES TOMPKINS

Says He Is Man He Saw Going Toward Auto Holding Bodies.

Johnstown, Pa., July 17.—George Naylor, a mine foreman, today identified George C. Tompkins as the man he declared he saw walking in the direction of an automobile on a country road near here Sunday in which he said he glimpsed the body of a woman and a boy.

The identification was made in the Cambria county jail where Tompkins is held, charged with the murder of Edmund I. Humphries, Mrs. Humphries and their son, Edmund Jr.

Tompkins, through his attorney, today waived preliminary examination. It is understood he is preparing to make a defense, the basis of which will be the story he told when he drove an automobile containing the bodies into Carrollton Sunday. He said the party had been held up by masked highwaymen.

BASEBALL RESULTS

NATIONAL LEAGUE

KAUFF SPIKES GILHOEFER.

Giants Win Another Easy Game from Chicago, 6 to 1.

New York, July 17. — New York won another easy victory over Chicago today, 6 to 1. Gilhoefer of Chicago was spiked by Kauff in the fourth and was forced to retire. R. H. 2. Chicago . . . 1000000000—1 8 6 New York . . . 0012200000—6 10 1 Batteries — Demaree, Hendrix and Gilhoefer, Wilson, Schupp and Gibson

REDS MAKE HITS COUNT.

Cincinnati's Good Playing Defeats Philadelphia by 3 to 1.

Philadelphia Pa. July 17. — Cincinnati made splendid use of its few hits today and defeated Philadelphia, 3 to 1. Cincinnati . . . 0102000000—3 5 2 Philadelphia . . . 0000010000—1 7 3 Batteries — Cheney and Clarke, Rixe, Oeschger and Kullifer.

BOSTON ADDS TO STRING.

Wins Fifth Successive Game by Beating Pittsburgh 10 to 6.

Boston, Mass., July 17. — Boston won its fifth successive game today, defeating Pittsburgh, 10 to 6, in a hard hitting game. Pittsburgh . . . 000004002—6 13 2 Boston . . . 630010000x—10 12 2 Batteries — Mamaux, Jacobs and Fisher, Nehf, Traggessor and Rice

KNOCKS BALL OVER FENCE.

Stengel Makes Mighty Drive in Tenth Inning with Score Tied.

Brooklyn, July 17. — With the score tied and one man out in the tenth inning, Stengel drove a ball over the right field wall today and won the game for Brooklyn from St. Louis, 2 to 1. St. Louis . . . 0000100000—1 4 1 Brooklyn . . . 0000001001—2 5 4 Batteries — Doak and Gonzalez, S. Smith and O. Miller.

AMERICAN LEAGUE

NO BASE HIT—SCORE TWO.

Two Men Sustain Split Hands in Game Between Cleveland and New York.

Cleveland, Ohio, July 17. — Scoring two runs without the aid of a base hit in the sixth Cleveland today defeated New York, 2 to 1. Catcher O'Neill and First Baseman Harris sustained split hands and retired. R. H. D. New York . . . 0000000001—1 7 2 Cleveland . . . 000002000x—2 4 1 Batteries — Russell and Walters, Klepper and O'Neill, Billings

CHICAGO TAKES TWO GAMES.

Twice Defeats Washington — Cicotte Allows One Hit in First Game.

Chicago, Ill., July 17. — Chicago twice defeated Washington today, 5 to 0 and 3 to 2. In the initial game Cicotte allowed the visitors but one hit. The second game was a pitching duel.

First game— Washington . . . 0000000000—0 1 1 Chicago . . . 014000000x—5 8 1 Batteries — Dumont and Henry, Cicotte and Schalk.

Second game— Washington . . . 00010000100—2 8 0 Chicago . . . 100100000001—3 7 1 Batteries — Johnson and Almsmith, Faber and Schalk.

TIGERS AND ATHLETICS DIVIDE.

Detroit Wins First Game, 9 to 2, Philadelphia Second, 3 to 1.

Detroit, Mich., July 17. — Detroit and Philadelphia divided a double header today. Detroit won the first, 9 to 2.

Reported to Have Sent U. S. Troops to Quell I. W. W. Disorder

BRIG-GEN. JAMES PARKER
CHIEF OF STAFF

Reports from Washington indicate that Brigadier-General James M. Parker, U. S. A., has responded to the appeals for United States troops made by Governor Campbell, of Arizona, and sent regulars to aid in quelling the I. W. W. disorders in the Bisbee, Clifton, Morenci and other districts of that state. Governor Campbell telegraphed the President that at least 5,000 I. W. W. agitators are fomenting trouble throughout Arizona and asked for troops. He was notified that his request had been referred to General Parker.

by hard hitting out Philadelphia took the second, 3 to 1.

First game— Philadelphia . . . 1000100000—2 8 2 Detroit . . . 00310023x—9 15 1 Batteries — J. Bush, Schauer and Myer, Schang, C. Jones and Stange

Second game— Philadelphia . . . 0002010000—3 11 1 Detroit . . . 000000001—1 4 0 Batteries — Noyes and Schang, Emke and Stange

PINCH HITTER WINS GAME.

Lumier Pulls the Trick That Drives in Winning Run for St. Louis.

St. Louis, Mo., July 17. — Lumier, pinch hitting for Shotten in the ninth, lined past Walker and Lewis, scoring Lavan, who had doubled, with the run that gave St. Louis the victory over Boston today, 3 to 2. Boston . . . 1016000000—2 5 1 St. Louis . . . 001001001—3 13 0 Batteries — Leonard and Agnew, Plank and Severoid.

EXONERATED OF CHARGES.

Chicago, Ill., July 11. — J. Franklin Baker, third baseman with the New York Americans, was exonerated of alleged tampering charges by President Johnson of the American league tonight. Baker in a letter to the league executive denied that he had attempted to induce Allen Sotheron of the St. Louis club to leave organized baseball.

Flag Language.

There is no international language of flags established by law, but by common consent flags of a certain color are used for certain purposes. All over the world a yellow flag is a signal of contagious disease. A ship hoists it to denote that there are some on board suffering from such disease, and it remains hoisted until she has reached quarantine. The white flag is universally used as a flag of truce. The black flag was formerly the symbol of piracy, and now in some countries it is flown after an execution is performed to indicate that the requirements of the law have been carried out. Other features of flag language are that a flag flying at half mast is a universal sign of mourning, and when a ship has to make a sign of distress she does it by raising the national ensign reversed or upside down. Even this can be emphasized by knotting the flag in the middle to indicate great distress and imminent danger.

How the Camera Man Fools Them.

The life of the camera man who takes the weekly news motion pictures is not always one of glory. When Mrs. Vandenberg, for instance, asks him to take a picture of her poodle when he wants permission to take pictures of her yacht he finds himself between two fires, notes the Popular Science Monthly. Either he must waste some precious film on the dog or he must refuse and be shown the quickest way back. One wise camera man, however, improvised a fake camera crank for such occasions. The crank arm fits loosely on the shaft of the film gear in the camera. When the poodle is going through his antics the turning arm slips on the shaft, and not a foot of film is exposed, although to all appearances a picture is being made.

NEGLECTED FOODS.

Their More Liberal Use Would Be a Help in Home Economy.

Among the foodstuffs that American housekeepers have scarcely utilized are turnip tops, radish tops, mustard plants, sorrel and chick peas among the vegetables and the cheese product that can be extracted from whey.

The greens mentioned may all be cooked like spinach or they may be made into delicious cream soups, as they have been for centuries by European housewives. Enough sorrel grows in the average vacant lot in every city to make many purees or cream soups. Chick peas are as nutritious as beans and when served in a broth are just as tasty. They also can be made into a puree.

Radish tops and mustard leaves make a cheap and appetizing salad.

Professor Mary F. Rausch in a lecture at the University of Washington gave some hints about home economies, one of which was that foods in shallow pans cook more rapidly than in deep pans, thus saving gas. Another was that not a scrap of fat of any sort need be thrown away, but all should go into a double boiler and be tried out for use in frying or as shortening for pastry. — New York World.

"TEAR GAS" TRAPS DESERTER.

French Soldier, Besieged in Home by Police, Ends Life.

Tear producing gas, such as is used on the battle front, was utilized by the Paris police to capture a deserter named Thoubin, who resisted them in his apartment in the Rue Andre del Sarre. Protected by a steel shield, a policeman braved the armed recalcitrant, bored a hole in the door and inserted a tube for the gas. As soon as he realized the situation Thoubin shot himself. His wife half suffocated, opened the door. Thoubin died soon after.

Sharing a Sentiment.

"Do you think a man ought to for give his enemies?" "Yes," said Senator Sorghum. "But he ought to make the score near enough even to let the enemy do some forgiving on his side." — Washington Star.

All habits gather by unseen degrees, as brooks make rivers, rivers run to seas. — Dryden.

Leader in Attack On German Chancellor

DR. PETER SPANH

Dr. Peter Spahn, leader of the Catholic Centre party in Germany, and president of the Reichstag, who has been one of the foremost opponents of Chancellor von Bethmann-Hollweg.

Filipino Singers and Players

CHAUTAUQUA week will be opened by this quintet of native Filipinos. They are all college men educated in the Philippines and exceptionally good musicians. They are full of energy and enthusiasm, and their work is characterized by extreme "pep" from start to finish. The leader, Mr. Calixto Llamas, is a musical prodigy both with the piano and saxophone. His playing is a whole entertainment in itself.

FINANCIAL AND COMMERCIAL

New York Markets.

New York, July 17. — Stock market prices experienced further shrinking for a time today on a decided diminution of business, but rallied briskly on the broad covering movement of the last hour. The same factors which have militated against improvement for the past fortnight were again in evidence, although call money kept in moderate bounds. Time loans hardened appreciably for all dates.

The course of the market pointed to its absolute dominance by speculative interest and the maintenance by that element of its bearish attitude. This was accentuated by unfavorable reports of conditions in steel, copper and motor industries.

Lowest prices were made during the intermediate period when U. S. steel fell two points to 119%, other industrial or equipments losing as much or more.

Heaviness was more recognized in the motors and war industries. Oil also yielded one to three points with copper and shippings. Steels rebounded to 121% shortly before the closing. Ralls joined in the movement with tobacco and sugars.

Trading in bonds in the open market was irregular and restricted but a far better inquiry was reported by dealers in private sales, especially for railroad shares. There was a falling off of offerings of liberty bonds quotations ruling at 99.40 to 99.44 for regular lots. Total sales of bonds (par value) aggregated \$2,185,000. U. S. coupons and registered 3's rose one-fourth on call.

New York Meats.

Beef — Receipts, 827; no trading. Calves — Receipts, 965. Market easier. Veals, \$12.00@16.25, culls, \$10.00. Sheep and Lambs — Receipts, 6,573. Market weak. Sheep, \$6.25@10.00, lambs, \$14.00@16.20. Hogs — Receipts, 1,490, no trading.

OUR RED CROSS TO USE DOGS.

Training School to Be Set Up Near Paris.

America's dogs will "do their bit" in the war. A number of them, specially fitted for Red Cross work, are already in France.

The American army sanitary experts have authorized the American Red Cross to establish immediately a dog training school near Paris. The dogs will be trained as French Red Cross dogs are, to find American wounded on the field, particularly over terrain that is broken or wooded. A number of expert American dog handlers are already in France and will begin the work at once with a few of the American dogs already received. More are said to be on the way, and the American training station will likewise receive a number of French dogs.

According to the plan of the Red Cross dog experts, three trained dogs will be attached to each Red Cross ambulance unit.

OTSEGO COUNTY NEWS

RED CROSS IN NEW LISBON.

Branches of Society Organized at Garrettsville, Wellcome and New Lisbon.

New Lisbon, July 17. — There are three branches of the Red Cross society in the town of New Lisbon, one at Garrettsville, one at Wellcome and one at New Lisbon, the latter being organized July 13 with 22 members. The Red Cross workers at Wellcome held an ice cream sale at the Baptist church Friday evening. The receipts were \$12.10.

Have Bought Automobiles.

Charles Walters, Roy Gilbert and Mrs. M'anie Peake have recently become owners of automobiles.

Home Economics Club Organizes.

The Home Economics club met at the New Lisbon hall Friday afternoon and organized for the second year. The following officers were elected: President—Mrs. Hazel Robinson. Vice President—Mrs. Pliny Thurston.

Secretary and Treasurer—Mrs. Amy Barton.

The next meeting will be held July 31 and August 1.

Miss Eggleston will be present with a pressure canner for canning vegetables and fruit for the members.

Birth.

A son arrived at the home of Mr. and Mrs. Frank Stafford at Morris Sunday, July 15. The mother will be remembered as Miss Elsie Stanhouse. Both were former residents of New Lisbon.

LATEST FROM LAURENS.

Suppers, Concerts and Social Entertainments and Hallstorm Saturday.

Laurens, July 17. — The ladies of the Methodist Episcopal church will serve a supper in the church parlors Wednesday evening, July 18, at 6 o'clock. Everybody come. Supper 15 and 20 cents.

Victrola Concert.

The Victrola concert given Saturday night for the benefit of the local Red Cross society was well attended, considering the hard shower which we had here that evening. The proceeds were \$18. Miss Josephine Lauren of Oneonta was present and rendered several solos, which all enjoyed.

Two Hard Showers.

This place was visited by two hard showers Saturday and Sunday afternoons. They were both accompanied by hail stones, which were of good size.

Home Economics Club.

The Home Economics club will meet at the Methodist Episcopal church Saturday, July 21, at 2 p. m. Not only

club members, but all ladies in the community are requested to come to this meeting. Miss Hale, assistant home demonstration agent, will be present and explain the future work the club is to take up. Come all ye ladies who are interested in the work.

Union Prayer Meeting.

There will be a union prayer meeting of all denominations in the Methodist Episcopal church Thursday evening at 7:30 o'clock. It is the desire of the pastors of the place to unite in these meetings and they are to be held in each of the churches alternately.

Other Laurens Items.

Rev. Mr. Sommers, pastor of the Methodist Episcopal church at Hartwick, occupied the pulpit here in the Methodist Episcopal church Sunday afternoon, Rev. E. D. Cook going to Hartwick. — Mr. and Mrs. Cuyler Lewis and children returned Saturday to their home in Crawford, N. J. — Mr. and Mrs. S. C. Millard and Mr. and Mrs. Ralph Widger motored to Cooperstown and Milford Sunday. — George Pride of Johnson City is spending the week here and renewing old acquaintances. — Mrs. Fayette Allen of Schuyler Lake was called here Tuesday by the sickness of her mother, Mrs. H. A. Kidder. — Mrs. Augusta Bailey spent Sunday and Monday in Oneonta. — Miss Alice Ford of Oneonta is a guest of Miss Julia Winsor. — Miss Lyla Widger and friend of Binghamton and Miss Ethel Tibbits of Utica spent Sunday at W. H. Widger's. — Albert VanSlyke and daughter, Adelaide, and son, James, left Tuesday for Battle Creek, Mich., to visit friends for a few days.

SCHUYLER LAKE NEWS.

Reception Thursday Evening for Rev. and Mrs. Arthur Landmesser.

Schuyler Lake, July 17. — A reception for Rev. Arthur Landmesser and bride will be given at the Methodist church Thursday evening to which a cordial invitation is extended to every one. A very fine musical program is being prepared.

Red Cross.

The Red Cross meeting will be held Wednesday afternoon in the Baptist church parlors. All members are urged to attend.

Personals.

Miss Anna Dessen of New York is spending some time at the Dyer house. — Miss Evelyn Lowry of Toronto, Canada, who had been stopping with Mrs. George Turner, returned home today. — Loren Knight is greatly improving the looks of his residence on Church street by building on a large new addition to replace the wing recently tore off. Carpenters Fay, Hinds and

Knight are doing the work. — Charles Brown and wife, E. Washburn, wife and son motored to Gloversville Saturday, returning Monday, where they visited relatives. — Miss Maria Newell of Cooperstown spent a portion of last week with Mrs. M. J. Clarke. — Mrs. John Clopton and daughter spent last week with her parents, Mr. and Mrs. S. V. Edmonds. — Miss Arlene Edmonds of West Winfield spent a few days last week with her grandparents, Mr. and Mrs. S. V. Edmonds. — Mrs. Leslie Rose and children of Laurens spent a few days recently among relatives in town. — Little Miss Frances Washburn returned home this morning from a week's visit with her great grandmother, Mrs. H. O. Kidder, at Laurens. — Miss Gladys Cristman of VanHornsville is spending some time with her aunt, Mrs. Marcella Cristman.

MANY MATTERS IN MORRIS.

Homer J. Davis Resigns as Deputy Postmaster After Four Months' Service.

Morris, July 17. — Homer J. Davis, who took the position as deputy in the postoffice here about March 1, has resigned on account of ill health, and Mrs. Alta Millikin is now learning the business and expects to work in the office. Mr. Davis was a very accommodating man and all dislike to have him leave.

Home Economics Club.

The Home Economics club held its annual meeting last Friday with Mrs. E. E. Carpenter and the following officers were elected:

President—Mrs. R. R. Ripley. Vice President—Mrs. H. H. Linn. Secretary—Mrs. C. H. Lawrence.

Refreshments were served by Mrs. Carpenter and reports read and accepted.

Working on the Tractor Plant.

Work on the new tractor plant is being pushed as rapidly as possible. The work of tearing down the old mill is about completed. Mr.

Evans of Deposit, the man who is to put up the concrete building, came last week and immediately set to work making the blocks for the front and the windows. A bed of fine black sand has been opened nearby where there is plenty for all work of making the concrete.

Called by Illness.

Mrs. Colbeck, wife of the Baptist minister, was called to the home of her parents at South Byron last week by the serious illness of her mother.

Changed Time at Telephone Office.

The time at the Central Telephone office has been changed for the mid-day hour. Now it is closed from 11:30 till 12:30 instead of from 12 to 12:30.

REDINGTON-TRASK.

Announcements Received at Otego of Their Marriage July 7.

Otego, July 17. — Raymond E. Redington and Miss Sara J. Trask were married July 7 at Mt. Rose, Pa., by Rev. R. F. Lesh. Both are popular and highly esteemed young people of Otego and the best wishes of their many friends will go with them throughout their married life. — Mr. Redington has enlisted in the Officers' corps and if accepted will leave next month for training.

Thimble Club To Be Entertained.

Mrs. Fred Tabor will entertain the members of the Eastern Star Thimble club at her home in Unadilla Friday afternoon. All members are urged to be present.

Miss Eggleston To Demonstrate.

The Otego Home Economics club will hold its monthly meeting next Tuesday.

Miss Eggleston, the new county demonstration agent, will be present and demonstrate both drying and canning of fruits and vegetables. The pressure canner may be used from 8 a. m. until 5 p. m. and all are requested to be present.

(Concluded on Page Seven.)

her mother, Mrs. Abrams. — W. H. Sheffield left this morning on a business trip for New York. — Mrs. Wilhelm and Leonard More of Newark are guests of Mrs. D. L. Gallup. — Mr. and Mrs. D. I. Sheffield left this afternoon for New York.

DELHI DAY BY DAY.

A New Chemical Engine Purchased by Fire Commissioners.

Delhi, July 17. — The village fire commissioners met last evening and contracted with an Elmira firm for a combination chemical engine for the Delhi Fire department. This improvement was voted at the last charter election.

Matters of Moment.

Mrs. Dalton Boone and daughter, Dorothy, are guests of Mrs. M. S. Crawford in Hamden. — Lane McGregor is home for a few days. — Marshall Dean is visiting his parents, Mr. and Mrs. Hiram K. Dean. — The monthly meeting of the Commercial club was held Tuesday evening. Important business matters for the welfare of the town were considered. — E. B. Sheldon and family are spending the summer at their country residence here. — Mr.

Berri of Brooklyn, son of William Berri of this village, sang a delightful solo at the Second Presbyterian church Sunday morning. — Attorneys A. J. McNaught, Henry B. Sewell, A. C. Fenton, Arthur Connor and A. Lynn O'Connor were transacting business in surrogate's court yesterday.

DAVENPORT CENTER NEWS.

Davenport Center, July 17. — Mrs. E. B. Sewell, who had been spending some time with her sister at Susquehanna, Pa., has returned to this place. — Rev. Alexander Bramley of Brockport is a guest at the Coulter home. — Mrs. Morell Burrell and little daughter of Vineland, N. J., are guests of friends in town. — C. P. VanDyke and family of Fort Jackson, St. Lawrence county, were week-end guests of his parents, Mr. and Mrs. A. J. VanDyke. They returned home Monday, accompanied by Miss Mary VanDyke, who will spend some time there. — Mrs. H. S. Olmstead was an Oneonta shopper Monday. — The three children of N. Cook are ill with the measles. — Dr. T. L. Craig attends them. — Master Charles and Harry Potter spent Saturday with their grandparents, Mr. and Mrs. M. A. Potter, at South Gil-

boa. — Mr. and Mrs. C. L. Smith and daughter of Oneonta are stopping at Butts' hotel.

West Davenport Picnic.

West Davenport, July 17. — The annual Baptist Sabbath school picnic will be held at Sherman lake July 19. A basket luncheon will be taken. A play, "The Rural Bible School," will be given at 2 p. m. at Sherman hall under the supervision of William Morris of New York city. Admission 25 cents. Children free. The proceeds are for the benefit of the Sabbath school. All those having no way to attend are requested to meet at the Baptist church here at 10 o'clock, where Mr. Sherman will arrive with his auto and convey them to the grounds. A cordial invitation is extended to the public to come and enjoy a day's outing with us. By order of committee.

Married in New York City.

Fergusville, July 17. — Friends in this vicinity have only recently received announcement of the marriage on March 10 of Miss Nellie Eunice Wagner, daughter of Mrs. E. D. Wagner, to Andrew Jackson of New Rochelle. The bride was attended by her sister, Mrs. William M. Horner of Brooklyn.

PEACE WITHOUT INDEMNITIES.

Now that both the external and internal conditions in Germany appear to have become serious, the German mind, which never has entirely lost its thrifty commercial view of the situation, is saying much about peace without annexations and peace without indemnities. The Junkers and war-mad leaders of course are still talking of German victory and of the days when vast indemnities will make good the loss which the Fatherland has sustained; but mostly that is a whistling to keep up the spirits at home, and also to an extent for foreign consumption. If there could be peace with the recession of the Central Powers and the Allies alike from conquered territory, with no annexations, no indemnities, no reprisals and no payment for the billions of dollars worth of property destroyed, it is probable that the majority of the German people would force peace upon the Kaiser.

Looked at from the standpoint of the present, continuing slaughter and keeping in mind our own volunteers and regulars who shortly are to bear their share in the fighting, there is reason, perhaps to wish for such an outcome of conflict. War is such a terrible thing. It means so much of loss of life, so much of wounding and maiming, so much of loss of property and of the diversion of the labor of mankind from the peaceful arts to the terrible ones which now we hear most about, that one need not be blamed who in his heart would be willing to see the old order come again, and each nation back to the status quo of the days before August, 1914.

He need not be blamed; and yet the nations of the world, meaning thereby all the allies and all the neutrals, could hardly be blamed if they did not consent to any such agreement. For at the best the restoration of the status quo would be nothing but a prolonged armistice. All the nations of the earth would rest upon their arms, but would not cast them away, and all would proceed with such speed as was possible to get themselves in shape again for fighting. And if the Central Powers at any time thought themselves ready—and their readiness would come quicker than that of France or Russia, or possibly of Great Britain, since there has been no considerable devastation of German territory,—the war would begin again, and all the horrors of the conflict would be revived.

Clearly there is something more which is needed than what Germany now tentatively proposes. There is need of disarmament save in so far as is necessary to preserve order at home. There is need of the abolition of great fleets, of war planes, of the submarine terrors of the deep, and most of all of the dynamic forms of government which have made such wars possible. When the people come in all nations to rule for themselves, either as republics like the United States and the other American republics, and France, or as limited monarchies, which are after all stopping stones toward absolute independence, there will come an end to any such fighting as for three years the world has known.

Peace without indemnities is within the possibility of acceptance, and this the more because all the participating nations save the United States are so near ruin as to be beyond the chance of payment. But peace without some such readjustment of internal conditions of the nations and of agreements between nations as will make war hereafter impossible is perhaps not to be desired. It may be that the present turmoil in Germany, and the effectual drive which the allies on all fronts appear to be making, may bring cessation of hostilities before the large mass of the American troops is sent to the battle front. It is a consummation devoutly to be hoped, but it cannot be denied that a mere going back to the conditions of 1914, without binding agreements for the future, disarmament and the abolition of the policy which has made Europe for a century a camp of soldiers in training, will be merely postponing the evil day by laying its burden upon the shoulders of the next generation.

Cadets and Field Bakery.

The following in the Knickerbocker Press of yesterday, from a cadet correspondent in the Peekskill camp, will be of interest to Oneonta friends of the soldiers of the Bakery company: "The daily routine of the camp was broken momentarily when the First New York Field Bakery from Albany and the Capitol district arrived in Peekskill. The men were assigned a site on a plateau back of the regular camp. The men passed in sight of the boys and there was wild cheering for several moments. The unit is camped in a separate site from the cadets."

Recruiting for Army Legs.

Recruiting for the regular army at the local station lagged yesterday, only one man, William J. Pochard of the city, enlisting. He joined the infantry.

WHAT THE PRESS IS SAYING

Voluntary Rationing.

Manipulation of the food supply of the nation by speculators, whose interest in profit making transcends their patriotism, can be ended only by the power of the national government because their machinations are nationwide. Until congress gives power to the president to deal effectively with the speculators, the public must take other steps to protect its interests. Voluntary rationing has been adopted by the government employees in Washington as a means of conserving the nation's food supply, and the virtues of this project are so manifest that every patriotic American should join in the campaign.—[New York Herald.]

Steel and Wood Afloat.

In commandeering the contracts for all steel ships now building in American shipyards, it is General Goethals' purpose to speed up the work of construction. Time is the essence of success in combating the German submarine campaign. The real problem is to secure the largest possible tonnage at the earliest possible date in order to repair the losses suffered by the allies' merchant-marine fleets. In the contracts already arranged by the Emergency Fleet corporation, of which he is head, General Goethals has found it necessary not to stick too closely to his theories about the relative merits of steel and wood ships. Contrary to his much-advertised views, in the search for shipbuilders it has been possible so far to place contracts for 348 wood ships of 1,218,000 tons and only 77 steel ships of 642,000 tons. After all, the wood ships may deserve a larger place in his calculations than he has admitted.—[New York World.]

Shipments to Germany Must Cease.

How can we assure ourselves that exports of agricultural products to the neutrals now will not in some way give aid to the foe? How can we know, for example, that our fodder grain will not make meat and dairy products for Germany? We must guard against such use of exports, not only because we ought not to feed the enemy, but also for the reason that we have only enough for ourselves and our allies. There must be absolute certainty that those who are fighting against us are not supported by our food. Certainly can be secured only by requiring that exports of food from the neutrals to Germany shall cease, or by permitting no shipments of foodstuffs to their ports.—[New York Times.]

Gets It "Going" and "Coming."

With some degree of alarm it is noted by the Ultimate Consumer—who does the paying—that managers of hotels and restaurants have been quick to signify their approval of the food conservation suggestion that they serve smaller portions, but that their assurances of reduction do not run to prices.—[New York Herald.]

Hawaii's Patriotism.

Hawaii has already contributed 4,397 volunteers to the army, the navy and the National Guard, or 1,994 more than her quota. Consequently the territory will not enjoy the pleasures of conscription, and its people are deprived of the delightful thrills that are felt in states which have not shown equal enthusiasm. The excess men contributed by Hawaii will be credited to states deficient in enlistments. New York gets 200 of them and the men thereby released from duty can do nothing less than make their representatives afloat and attend the particular objects of their care during the war.—[New York Sun.]

FOR A PARK SWIMMING POOL.

Federation for Social Welfare Endorses Suggestion for Wilbur Park.

At a meeting of the executive committee of the Oneonta Federation for Social Welfare, held Monday afternoon, the matter of the construction of a swimming pool in Wilbur park was discussed and met with the hearty approval of all present. In order that the position of the federation might formally be expressed, the following resolution, duly presented and seconded, was adopted:

Whereas, It has come to the attention of members of the executive committee of the Oneonta Federation for Social Welfare that the city officials are considering the erection of a dam and the establishment of a swimming pool in Wilbur park to be maintained as a public station for the young of the city of Oneonta; therefore be it

Resolved, That the executive committee of the Federation for Social Welfare, assembled on this sixteenth day of July, 1917, most heartily commend the tentative plans now being considered for this recreation center and earnestly urge the park commission specially to construct the proposed swimming pool, believing that such an enterprise will mean more toward the development of the youth of this city than any form of entertainment of amusement suggested or undertaken; and be it further

Resolved, That a copy of this resolution be sent to the park commission of Oneonta, Mayor A. E. Cenerley and also the members of the council.

A. M. Curtis,

President.

Mrs. G. R. Baird,

Chairman Executive Committee.

Builds Handsome New Church.

Many Star readers will recall John H. Earle, formerly of Wells Bridge and a student at the State Normal. He is now pastor of the Baptist church at Ledgewood and Mt. Olive, N. J. At the former place he has just completed the erection of a handsome new stone church. That he is proving successful in the pastorate is further evidenced by the fact that he is moderator of the Morris and Essex Baptist association and vice president of the Morris County Christian Endeavor union.

Chaplain E. H. Lougher

THE lecturer the first afternoon of Chautauqua has a hard place to fill. He must be able to set the pace for the rest of the week. Here is the man who can do it. E. H. Lougher, prison expert, will discuss Criminology in his lecture "The Shackles of the World." No man on the speaking platform today has a greater power to stir the intellects and hearts of his hearers. Hear him.

IN BOYS' CAMP AT PEEKSKILL

Ralph W. Ackart Writes Interesting Account of Cadet Life—The Daily Round of the Camp and How the Boys Are Fed and Instructed.

The five fellows in this camp from Oneonta thought that maybe The Star could use a little dope about our activities in this instruction camp. Russell Stapleton has achieved the rank of sergeant, owing to his previous military knowledge. The other four: Chester Miller, William Fay, Francis Haner and myself (Ralph W. Ackart) are all privates in Company H and are fast gaining an insight into nearly all branches of military work.

The mornings are devoted to drill. In the afternoon the activities vary. Four days a week we have athletic training, which includes basketball, baseball, track work, swimming, etc. Two afternoons are devoted to lectures on engineering, signaling and similar subjects.

Our rifles were issued to us last Friday and we are now busy learning the manual of arms and nursing sore shoulders. The rifles are of the Krag Jorgensen type, and according to Chet Miller would be fine for shooting rabbits.

The Y. M. C. A. is doing a lot of work here for the cadets. The association has two large tents, one used for a reading and writing tent, and the other for a lecture hall. Three times a week motion pictures are furnished and often eminent speakers entertain the lads.

But the best thing of all is the " grub." The best of food is furnished and everything from ice cream and apple pie down is furnished us. According to the officers the cadets' mess is just as good as theirs and we certainly believe them.

The weather to a certain extent has hampered operations, but the fellows do fast learning to navigate through the mud. The occasional sun has tanned the fellows to a slight degree, but not enough to satisfy them.

Practical jokes form a large part of our fun and it wouldn't be safe to ask Francis Haner if he ever succeeded in finding the ten yards of skirmish line he hunted quite a while for, or "Billy" Fay if he asked the quartermaster for a tent pole stretcher. But the fellows take everything good naturedly, and it can be easily seen that we are gaining in health, knowledge and the importance of military training to every boy in the country. Hoping this recital has been of interest to you, I am, sincerely,

Ralph W. Ackart.

Peekskill Camp, July 16, 1917.

FORM ST. ANDREW CHAPTER.

St. James Church Has Organization to Interest Men in Church Affairs.

At a meeting held in the parish room of St. James church last night, a probationary chapter of the Brotherhood of St. Andrew was organized with 12 members. The new organization will hold meetings on the first and third Tuesdays of each month. It was largely through the efforts of Major Charles T. Greene, the commander of the recruiting station in Oneonta for the United States army, that this chapter has come into being. The Brotherhood is organized for three purposes: To bring men to communion on the third Sunday of each month, to form a men's bible class, and to interest the men of the parish to attend church on Sunday evenings.

The third Sunday of the month is next Sunday, and so the first of these endeavors will be to get the men to attend the communion, after which the others will be carried out in order.

At the next meeting of the organization, a president and a secretary will be elected.

Bronk Buys Nichols Block.

William Bronk, who has kept the really men busy for a fortnight and more, has now repurchased of John Graney and others, to whom he sold the Nichols block shortly after he took it in exchange for the Dibble farm, the block. It is understood that he has announced that after this whirlwind of activity he is through and will rest upon his laurels for a time.

THE CHILDREN'S CHAUTAUQUA.

An Opportunity Which Parents Should Not Overlook.

One of the most valuable features of the Chautauqua week is the work which is not only very interesting, but instructive.

The instructors in charge of this work are men and women who have specialized in community work with children. Parents and teachers interested in working with children can well afford to be present and see how the work is conducted. In many towns persons who take an interest in children buy a number of children's tickets and give them to those who could not otherwise afford to attend. These tickets cost but a dollar and admit children to all of the entertainments.

The work for the older boys is in charge of a young man detailed for this purpose from a military school. Each boy brings a broomstick which he uses for a gun. He is taught how to stand and walk correctly. Special attention is given also to breathing and setting up exercises.

A children's pageant will be given on the last day of the Chautauqua and the boys will give an exhibition drill. The Junior Chautauqua meets each morning at 8:45. It will be worth while to have your boy and girl attend.

RONAN BROS.

Vacation Supplies, Hot Weather Apparel, Everything for Summer Comfort at the Ronan Brothers Store

This splendid collection includes the following: Women's Suits, Sport Coats, Dresses, Tub Skirts, Silk Stripe Sport Skirts, Waists, Millinery, Silk and Muslin Underwear, Hosiery, Bathing Suits, Caps, and Shoes, Neckwear and many other useful supplies.

Women's Cotton Waists

For the July vacationist hundreds of fresh new Waists in cool, dainty summer styles—and so moderately priced that one may lay in a supply, with no very great strain on her purse.

At 98c and \$1.00—White Waists tailored and trimmed models; waists in color, white with a touch of color and in sports-stripe effect.

\$2.00 and \$2.25—Waists of voile, batiste and lawn in semi-tailored styles.

At \$2.50 and \$3.00—Waists of white voile and batiste, elaborately trimmed with lace.

Fashionable Millinery

If the hat bought earlier in the season is beginning to show signs of wear, or if one is needed to be worn with light summer dresses, it may be purchased here for very little. Our summer lines include hats for all occasions, for dress, traveling and sports wear.

WHITE SPORT HATS \$1.08 and \$2.50.

For motoring or golf, finished with a fancy band of ribbon.

PENCIL BRIMMED PANAMAS \$1.99 to \$3.50.

The height of fashion at every shore and mountain resort, trimmed with bands of fancy and grosgrain ribbon.

TRIMMED WHITE HATS FROM \$3.50 to \$5.00.

Summer hats trimmed with flowers and fancy feathers, many of them with crepe facings.

Tub Skirts for Summer

These skirts are made from the latest materials, such as cotton gabardine, linen, rep, cordane and piques and show the most amazing pockets, some of them hanging quite loose from the skirt and attached only by straps and buttons.

Prices \$1.39, \$1.75, \$2.00, \$2.50, \$2.75, \$2.95, \$3.50, \$4.50, \$5.00 and \$5.90.

Bathing Suits, Caps and Shoes

All are brand new and up-to-the-minute styles, trimmed with contrasting colors to match the fabrics.

Prices \$1.00, \$1.50, \$2.00, \$2.25, \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00 and \$5.90. Caps at 25c, 35c, 50c and 75c. Shoes at 25c, 35c and 50c.

Like buying Wheat at \$1.25

Buying a suit at our present prices can be compared to buying wheat when it sold at \$1.25 a bushel.

Mind you, this is not a cry of "wolf" but a tip from those who are familiar with market conditions—who can see the effect on prices that huge government buying, combined with the tremendous shortage of wool, is bringing about.

Kuppenheimer Clothes

Today are mighty good buys, either to meet your present clothes needs or to lay away for the future.

LOCAL MENTION.

—George E. Moore is assisting at the store of Albert Hutson, Inc., during the vacation of Mr. Card.

—Your children will secure more than a dollar's worth by the use of a ticket for the Junior Chautauqua. Buy them tickets early today.

—The business of Hamm & Orr, operating lumber camps in and about Maryland, is being conducted by Mr. Hamm since the death of his partner, Frank Orr.

—The ladies of the Free Baptist church will serve a 25 cent tea in the church Saturday evening from 5 o'clock until all are served. Watch for the menu in Saturday's Star.

—Street Superintendent Bull has made a notable improvement along Main street by filling in with oil and stone the holes in the pavement. The task is appreciated especially by motorists.

—The tennis court at the Y. M. C. A., which had become a veritable weed garden during the early summer, is being cleaned and put into condition for play. It will be appreciated by many members, there being much interest in the game this summer.

—You can secure tickets yet today for the Chautauqua at the banks or at the stores of Henry Saunders and R. W. Murdock. The number is now reduced to a comparatively small number, and it is hoped to have the entire number sold by the time the Chautauqua opens this afternoon.

—J. G. Vought, representing the International Harvester company, has recently sold and delivered through A. H. Murdock, to Porter Brothers, who are engaged in work on the Delaware and Hudson, four 10-20 Titan I. H. C. traction engines. These engines are used for hauling dirt and gravel and are proving to be a great success.

New Rex Garage Opens Today.
The Rex garage, located on Market street, west of Chestnut Street extension, throws open its doors this morning as a new Oneonta institution. It is 45x70 feet, built of brick, with a cement flooring, and has a capacity of 18 cars. The owners are Rex Chamberlain and W. L. Utter, both Oneonta men, the first having charge of the business and the latter, who is an electrician, supervision of the mechanical department.

The garage has a repair service employing six mechanics and a complete machine shop and welding plant. There is a storage tank connected with the place holding 800 gallons of gasoline, while a complete line of auto supplies is carried.

A taxi service to any part of the city or surrounding country will also be instituted by the new concern, and this may be patronized any time from 5:30 a. m. until an hour after midnight.

To Organize Veterans' Sons.

As senior vice commander of the William G. Mitchell camp, No. 138, of the Sons of Veterans, Major Charles T. Greene has been authorized by the division commander of the organization to form a camp in this city, and this evening at 8 o'clock a meeting for this purpose will be held in the local recruiting station at 176 Main street.

All male descendants of the Veterans of the Civil war are urged to attend.

Meetings Today.

Regular meeting B. F. O. Elks this evening at 8 o'clock in club rooms.

Regular meeting of Royal Rebekah lodge, No. 181, at 7:30 p. m. Initiation. Those who are to bring refreshments please have them at the rooms by 5:30 o'clock.

Regular meeting L. O. O. M. No. 358, this evening at 8 o'clock, at Dietz street club room. Class for initiation. All members requested to be present.

Autumn Lodge Picnic.

Autumn lodge will hold a picnic Thursday afternoon from 2 until 5 o'clock at the home of Adah Pomeroy, South Side. Bring usual refreshments.

CHAUTAUQUA OPENS TODAY

EXCEPTIONALLY ATTRACTIVE PROGRAM OFFERED THIS SEASON.

Filipino Singers and Players With Mr. Lougher and Mr. Newens the Lecturers—Children's Chautauqua Feature Worth While.

Oneonta's summer Chautauqua opens this afternoon at 2:30 o'clock in the big tent which the bunch of college boys forming the force have erected on the Huntington lot on Church street and every indication is for a largely attended and successful Chautauqua. The program for the day is said to be one of the most pleasing of the week. The Filipino Singers and Players furnish the musical opening numbers this afternoon and evening.

The address of the afternoon will be delivered by E. H. Lougher of Michigan and Mr. Newens will give his captivating entertainment "A Message from Mars" in the evening. Miss Murphy met the children yesterday afternoon at the grounds and the regular sessions of the Junior Chautauqua are held at 9 a. m. with the tickets good for all the afternoon and evening entertainments. Thursday morning Prof. Marshman commences his regular morning lectures, the theme for that morning being "Individual and National Indifference," a theme which everybody should hear discussed. Reference to the program of Thursday afternoon and evening was made in yesterday's issue.

Friday morning at 10 o'clock Prof. Marshman will speak upon "The Dynamic of an Ideal" and in the afternoon the Criterion Male quartet which is second to none in the country, will give a concert and one or more of their number will give the musical prelude to the evening's lecture. In the evening Joe Mitchell Chaple, editor of the National magazine, and one of the most interesting speakers on the Chautauqua platform will give his inimitable lecture, "Flashlights of Patriots."

Saturday morning Prof. Marshman's subject will be "The Making of a Person," and the balance of the day will be given over to Cinema and His Band with Mme. Helene Cafarelli, the dramatic soprano soloist, concerts being given both afternoon and evening. This band comes highly endorsed and the day will be a notable one for all ticket holders.

"Tearing Down Old Walls" will be the subject of the morning lecture Monday and in the afternoon the famous divine, Dr. Frank W. Gunsaulus of Chicago, will lecture upon "The American of Tomorrow." This is a lecture which no citizen can afford to miss and he should have a record audience. In the evening the Laurant company will devote the entire evening to a Magical Fantasia and this will please both old and young.

On Tuesday morning Prof. Marshman on his final appearance will give "An Interpretation" and in the afternoon the children of the Junior Chautauqua will give a Pageant under the direction of Miss Murphy. The afternoon lecture will be by Dr. Stephen A. Lloyd of Cortland. His subject is "America's Best" and the lecture is of the Chautauqua's best. The final number is a grand concert by Miss Myrna Sharlow, prima donna, of the Chicago Grand Opera company and a coterie of artists who are pronounced high class artists.

There still remain a few season tickets in the hands of the local committee and it is hoped that all citizens who can attend will buy a season ticket today.

FIELD BAKERY COMPANY.

Mustered into Service Monday Morning — Where to Send Mail.

Captain Jesse A. Millard's command, the New York Field Bakery company, No. 1, was mustered into service Monday morning at 9 o'clock at Peekskill. All mail intended for the members of this company can be sent to "New York Field Bakery, No. 1, Peekskill, N. Y.—State Camp," until a new address is given.

STRAND TODAY.

Strong Triangle Play, An Old Fashioned Young Man and Latest News.

With scenes actually photographed in eight of the largest cities of the United States and aboard the train that carried the company on the 5,000-mile trip, the new Triangle picture "An Old Fashioned Young Man," offers one of the most unusual pictures shown in some time. A story of a young man who defends the reputation of a woman who he finds later to be his mother. The latest news will also be shown. See what you have been reading about just the other day. There will be a good Keystone comedy shown also.

HAPPY HOUR THEATRE.

Eddie Polo and Mary McLaren in "Money Madness."

In "Money Madness," Eddie Polo, who plays opposite charming Mary McLaren, is given a chance to perform more of those daring stunts for which he is noted. This great picture is taken from one of Frank H. Spearman's "Whispering Smith" stories, which appeared in the Saturday Evening Post. There is also another side-splitting L. K. O. Comedy, "Chicken Chased and Hen Picked."

FUND FOR COMPANY G

Soliciting Committee Named to Secure Emergency Fund for Use of Company During Absence at the Front.

Oneonta has never permitted Company G to leave for the front for service without a substantial fund for the use of the men in emergency, and as the time is approaching when the command will leave for the south for training, President Charles Smith of the Oneonta Chamber of Commerce has named the following committee to solicit donations for the fund, which should be a substantial one: F. A. Herriott, C. J. Beams, L. L. Gardner, Hon. Chester A. Miller and C. F. Sheldahl. The committee will doubtless meet at an early date and arrange for systematic canvass of the city for this fund.

With a long term of service a possibility, the city cannot in justice to itself have this fund small or insignificant. There are doubtless many persons who will wish to contribute, and it is believed that the response will be hearty and generous. Previous funds have been dispensed carefully and a substantial portion returned to the donors. This time the command may be absent for months and even years and the need is one that should appeal to all generous people. The officers of the company are men of the finest type who will see that every dollar is carefully used and that it is expended only for such emergencies for which no other provision is made.

Anyone disposed to aid in the work and wishing to save the committee labor may hand their donation or notify any member of the committee of the sum they will give and the committee as well as the company will be grateful.

The company has, owing to the military conditions prevailing at the armory and the necessity for daily drills, been obliged to abandon the project of holding a benefit dance. The calls for assistance for families will be small, owing to the fact that a very small number of the men whose residences are in this city are married, which fact should result in increased subscriptions to this fund.

BEGINNERS' CLASS.

In Surgical Dressings Opened at Woman's Club Rooms Yesterday.

A beginners' class in surgical dressing was organized yesterday afternoon in the Woman's club rooms. The meeting was held that afternoon instead of this afternoon, on account of the Chautauqua, which opens today.

Ten young ladies began the work auspiciously under the instruction of Miss Alden. The advanced class held its last meeting at the same time. Early in the afternoon a party of nearly 20 arrived from surrounding towns, where branch societies of the local chapter are situated. They received instruction in the work and will in turn present the work before the members of their respective societies.

The beginners' class will meet again in the Woman's club rooms next Wednesday afternoon at 2:30 o'clock. Any who were not present at the first meeting and who desire to avail themselves of the opportunities of the class may enter at this meeting and will be allowed to make up the time lost.

Demonstrate Red Shirt Making.

The local chapter of the Red Cross and 20 delegates representing the branches at Unadilla, Milford, Schenectady, Worcester and West Oneonta, were shown how to make hospital bed shirts by Mrs. O. A. Miller at a meeting held in the Red Cross headquarters yesterday afternoon. The meeting was merely one of demonstration, and today, from 1 o'clock until 2, further action will be taken on the making of such shirts.

GIVING BECKY A CHANCE.

An Innocent "Fib" Causes Serious Complications in the Knight Family.

It was a great surprise to Tom Fielding to see the girl with whom he was desperately in love appearing as a masked dancer in a celebrated road house on the outskirts of New York city. Explanations were in order and they were given with such an honesty of purpose that what might have been a calamity in the affairs of these two well known families was avoided. Vivian Martin, the captivating Oliver Monrovia star, is appearing at the Oneonta theatre today in the clever story, "Giving Becky a Chance."

It has all of the charm of a spring morning and during its development there is much a laugh in store for you, so why miss it? As a danseuse Miss Martin has won recognition on the speaking stage and during this story gives an exhibition of terpsichorean art that makes a decided "hit."

As a subordinate feature a Pathe scenic will be shown, which rounds out a most satisfying program. Admission 10 cents.

Thursday, matinee and night, the beautiful Kitty Gordon in "Forget-Me-Not."

STRAND TOMORROW.

Clara K. Young in Frances Starr's Greatest Success, "The Eastest Way."

Clara Kimball Young will be shown tomorrow in Frances Starr's greatest success, "The Eastest Way," from the famous novel by Eugene Walter. Miss Young is supported by Rockcliffe Fellows, who was Miss Starr's leading man in the original production. The screen version is considered better than the stage production. Produced by the famous Selznick pictures, producer of "The Common Law" and "Panthea."

Tire-Doh.

Repairs all punctures, cuts and sand holes permanently. See it demonstrated at The Francis Motor Sales company, 229 Main street. advt 12t

For prompt taxi service phone 263-W, or residence 1022-W. J. W. Pomeroy, Wilson house. advt 1mo

WAISTS

This has been an unusually busy season in the Waist section. A considerable amount of the business has been due to the very excellent range of styles shown. At this particular time we have an even larger and if possible more striking array of styles and fabrics than when the season opened.

In particular, the Lawns, Organdies and Voiles are bound to interest you. Dainty and cool, well tailored and good fitting. Sizes 34 to 46. Prices 75c to \$3.50

Waists of Crepe de Chine in white and colors \$3.50 to \$6.00. The Georgette Crepes, a Waist every woman has admired. A line of plain and embroidered styles, \$5.00 to \$7.00.

The new style Wash Silks are being shown at \$3.00, all sizes. Smart White Wash Silk Waists in all sizes, at \$3.00

SOLDIERS SPEND ACTIVE DAY

DRILL IN MORNING WITH PRACTICE HIKE IN AFTERNOON

Numerous Promotions to Offices in Company with Three Recruits Accepted — Three Reservists Apply for Re-enlistment — Medical Examinations Completed.

Company G were given an active day yesterday and from now until their departure they will be given probably constantly increasing activity to harden them for the field. In the morning a drill was held and in the afternoon the company was taken on a practice hike to the stone crusher at Emmons and returning reached the armory by the Chestnut street, Watkins and Fairview avenues route. There were about 140 men in the line, making probably the largest company residents of the city have witnessed in years at least. The men are a robust, sturdy lot, and while the personnel of the company has changed materially since the term of service at Garrison, the men made a fine appearance and marched with the step of veterans.

The officers of the company is being brought to the standard of the federal army. The following promotions were yesterday announced: Corporal John H. Napper and Privates John Gumburg and Oliver L. Lull to be sergeants; Privates Harry D. Whitmarsh, Charles E. Gear, Jay O. Green, Charles N. Hopkins, Frank Larbell, Harry Leonard, Clifford G. McLeese and Richard S. Potter, to be corporals. The following recruits were accepted as members during the day: William G. Cross, Oneonta; George L. Haney, South Gibson, Pa., and Frank C. Every, Cooperstown. The following reservists applied for re-enlistment: Tracy E. Jewell, Milford; August J. Otto and Frank C. Housen. This feature of the day was much appreciated by Captain Keopers, who is working enthusiastically to bring the company to a high standard and is meeting with marked success.

The balcony at the armory is frequented during the day by friends of the company, who seem never to tire of watching the activities and the doings of the men. The placing of sentries about the building is a necessity, but friends of the men are welcome in the balcony at any time.

U. S. WILL INSURE ALL ITS FIGHTERS

Experts Devising Plan to Compensate For Injuries in War.

BENEFIT FOR DEPENDENTS

Scheme Will Make It a Tax on the Whole People, Says Insurance Man. The Treasury, War, Navy and Commerce Departments Are Working on It to Avoid Evils of Pension System.

Following a conference in Washington with Secretary of the Treasury McAdoo, a committee of prominent insurance men have drawn up a plan for pensions or compensation for casualties in the war, which will be submitted to congress.

The details are to be worked out in co-operation with the secretary of the treasury and officials of the war, navy and commerce departments, as well as the Council of National Defense. It was said they will conform as closely as possible to the principle of the workmen's compensation law.

To give some idea to soldiers, their families and the public of what the government, aided by the insurance companies, was trying to work out, the head of one of the large companies, who deprecated any idea of self advertisement and therefore did not wish to be quoted by name, outlined the basis on which the experts are working.

"The government," he said, "is interested in putting something through in this matter that will be a happy solution of a difficult problem. It decided to appoint a committee of actuaries, with the agreement that the insurance companies would help the government. It is not life insurance that is sought. It is casualty insurance or, better still, it is compensatory insurance."

"That Uncle Sam is a great big employer was the idea finally agreed on by the insurance and casualty 'chemists' down in Washington, and the proposed insurance will in effect be a death benefit for the dependents of those who succumb in action."

To Avoid Evils of Old System.

"The government, you see, is very eager to do something to avoid pensioning as it has formerly existed, to avoid the evils of the old pension system. What it wants to work out is compensatory insurance. Age has nothing to do with it. It isn't life insurance."

"Of course the companies might have gone into a pool or a bureau, and the government would be sending out checks after proof, but the great desire now is to simplify the whole matter."

"In short, it is proposed to put the pension plan on a workman's compensation basis. Of course it is up to congress, but I think it will go right through without a hitch. Mr. McAdoo stated what was wanted on behalf of the president, and the companies are willing to lend to the government their expert service, their statistics, etc. They have very recent statistics from Canada, where a great deal of insurance is carried."

"The government and the representatives are in co-operation to develop the simplest possible plan, such a one as is being carried out by big business through the workmen's compensation."

"The workmen's compensation law interposes between the workmen and the hazards of labor. By this plan it is desired to interpose between the soldier and the hazards of war. The plan when finally worked out may be varied, according to the condition of the family of a soldier. It might be a matter of compensation by installment."

Will Be a Tax on Whole People.

"The principle of the workmen's compensation is being recognized by the United States in this war. The government says: 'We'll meet the necessary tax to compensate, and it will be a tax on the whole people. It will be just the same as if the problem arose in a bridge factory, a shoe factory or on a railroad. We'll tax ourselves. Here's a whole army going up against these hazards, and some must meet them.'"

"Such acceptance of this principle amounts to a social evolution. It would be a victory to have it accepted without debate, and with this compensation principle granted and accepted the ground is cleared for this war. It will be highly volunteering for the volunteers nearly all have dependents and the drafted have not. It simply shows what a great democracy does for itself in this emergency."

"Such a system would supplement a soldier's per diem. His dependents would get his compensatory damages. That is why the government wants the plan crystallized in advance. The plan will probably be uniform, with our regard to previous occupation."

Mastered the Servant Problem.

An article in the Woman's Home Companion says that 92 per cent of the women in this country do all their own work, and the writer adds that her particular domestic problem has been solved by a scientifically planned and pretty kitchen that serves as a dining room also. Numerous devices and innovations have been contrived by her that make this room artistic and attractive as well as useful.

"We think that for us we have eliminated the servant problem," she declares, "for to my mind if one's life can be so planned that daily wants are reduced to the minimum and efficient agencies by which to supply those wants raised to the maximum the entire problem has been met and solved."

Securing an Audience.

"And the audience, my boy, were glued to their seats," said the delighted actor.

"That certainly was a neat way of keeping them there," said the critic.—Chicago Herald

TO DRAFT TRAFFIC ORDINANCE

COMMON COUNCIL REACH AGREEMENT UPON PROPOSED MEASURE.

Will Prohibit Leaving Cars Without Driver Within 40 Feet of Street Corner or 20 Feet of Hydrant—License Granted for Moose Carnival.

At the meeting of the common council, held last evening, Mayor Ceperley and Aldermen Edmunds, Bolton, Coy, Lauren and Webb talked over informally the proposed traffic ordinance relative to the parking of automobiles on the business streets and it was tentatively agreed that it would be unwise at this time to prohibit leaving cars unattended in the business section, the aim being to relieve the congestion upon Main street, which is very narrow, and make it safe and usable for both residents and visitors without creating any wrong impression and with the minimum of annoyance to any class. The suggestion which met with favor was that an ordinance be drafted that will prevent the leaving of cars without a driver within 40 feet of a street corner with the prohibition relative to hydrants in force. It is believed by a majority of the aldermen that when drive of all vehicles learn of the convenience of the parking place on Dietz street with the provision made there for car parking for cars that many will come to use it and that the question will solve itself. The need of greater protection at the street intersections, chiefly to afford those approaching the corner an unobstructed view of the traffic from all directions is appreciated by all.

It is expected that the committee upon the subject will confer with the city attorney and that an ordinance will be drafted ready for submission at the next meeting of the council. The proposition is one that should appeal to all citizens as well calculated to relieve the trouble to a considerable extent. It is proposed to enforce the ordinance when enacted, but to insist that the police do so with uniform courtesy and in the case of strangers inform them of the provision in pleasant terms and request cheerful compliance as a safety step. Willful offenders will without exception be vigorously prosecuted if the council's wishes are carried out.

After auditing bills for current expenses the council granted permission upon the favorable recommendation of the fire chief to Dauley & Wright to erect a shed without sides on the rear of their Broad street lot near South Main street for the storage of wagons.

City Engineer Gurney reported to the board that an effort had been made to sewer Brookside but that it was found that there was no sewer prospect street and that it was not feasible to connect it with the main sewer. He recommended that it be severed across to South Main and estimated the cost at about \$360. The council requested that the subject be presented to the board of public works. The proposed sewer would serve seven double houses and about 70 people.

Messrs. A. E. Groat, T. E. Blanchard and C. W. Southworth appeared before the council in behalf of the Loyal Order of Moose and requested that consent be given for the proposed carnival during the week of July 30 for the benefit of that organization and that the license be waived. The request was granted without dissent. It is to be held at Ne-ah-wa park.

After listening to the reading of the use of "rotting machines" from a salesman for that article the board laid the matter on the table and then adjourned.

CHARGED WITH HORSE STEALING

George Van Valkenburg Apprehended in Town of Tompkins for Crime.

Some time in June last George Van Valkenburg, so it is alleged, took a colt from the pasture of Decoursey Smith in the town of New Lisbon and bringing it to Oneonta exchanged it with Charles Ingerham at the stables of H. W. Sheldon for another horse. An investigation revealed that Van Valkenburg was at the home of his father in Finch Hollow in the town of Tompkins, Delaware county, and a warrant for his arrest on the charge of grand larceny was issued by City Judge Shove and forwarded to Sheriff Austin of Delaware county, who went to Finch Hollow and placed the accused man under arrest. He was brought to Oneonta on Monday and waived examination. He was taken to Cooperstown by Sheriff Brown and will be held to await the action of the grand jury. It could not be ascertained whether Mr. Smith has recovered his colt or not.

Old Bids From Novels.

We are reminded that if human beings lived on the planet Saturn they would be old at three years of age—not that life is any swifter or the cares of maturity any more pressing. It is merely because Saturn is so far from the sun that it takes nearly thirty years, according to the earth's measurement of time, to travel in its orbit round the sun.

Odd Bits From Novels. "He fixed the jury with his eye," says a novelist. A poor thing to fix a jury with, truly.

"He stood as if carved from stone," says another writer. No wonder! He had just been chiseled out of his rocks.—Boston Transcript.

Those who have discovered the flavor and quality of Osego coffee say to their friends: "You must try Osego." Just convince yourself once—the taste tells. Talk it over with your grocer. advt 1t

Nuxated Iron Should Be Used in Every Hospital and Prescribed by Every Physician

Says Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital.

It quickly enriches the blood, strengthens the nerves and puts most astonishing youthful power and vigor into the veins of both men and women. It often increases the strength and endurance of delicate, nervous, run-down folks 100 per cent in two weeks time.

Opinions of Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York, Dr. A. J. Newman, late Police Surgeon of the City of Chicago and former House Surgeon Jefferson Park Hospital, Chicago, and other physicians who have tested Nuxated Iron in their own private practice.

In a very interesting and instructive discourse on the great value of Nuxated Iron in the blood, Dr. Howard James, late of the Manhattan State Hospital of New York and formerly assistant physician Brooklyn State Hospital, said:

"A patient of mine remarked to me (after having been on a six weeks' course of Nuxated Iron),

"Say, Doctor, that there stuff is like magic."

"Previous to using Nuxated Iron, I had been prescribing the various mineral salts of iron for years, only to meet complaints of indigestion, constipation, flatulence, etc., when I came across Nuxated Iron, an element, ingenious preparation, containing organic iron, which has no destructive action on the stomach, and which is readily assimilated into the blood and quickly makes its presence felt by increased vigor, sleep and staying power."

"Iron is absolutely necessary to enable your blood to change from its living tissue. Without it, no matter how much or what you eat your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly, just like a plant trying to grow in a soil deficient in iron."

"As I have said a hundred times over Nuxated Iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run down, instead of dosing themselves with habit forming drugs, stimulants and alcohol, I am convinced that in three times the time they would be free from all disease-producing elements in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous ailments. The real and true cause which starts all their diseases was nothing more or less than a weakened condition brought on by a lack of iron in the blood."

"Thousands of people suffer from iron deficiency and do not know it. If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. Then take two five grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. From my own experience with Nuxated Iron I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."

Dr. E. Sauer, a Boston physician, who has studied both in this country and great European medical institutions, was asked what he thought of Dr. James' remarks. In reply he said: "I fully agree with Dr. James. People need more iron. There can be no strong, vigorous iron men and beautiful, healthy women without iron. Not long ago a man came to me who was per-

Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital tells physicians he believes that more Nuxated Iron should be prescribed to meet the great problem of iron deficiency with its attendant symptoms of weakness, nervousness, lack of vitality, paleness, and generally rundown conditions.

WARNS AGAINST USE OF ORDINARY METALLIC IRON so commonly taken by most people.

he half a century old and asked me to give him a preliminary examination for life. I said: "I am astonished to find him with the blood pressure of a boy of twenty, and as full of vigor, vim and vitality as a young man; in fact a young man he really was notwithstanding his age. The secret, he said, was taking iron. Nuxated Iron soon did nearly all in now at 30, after he was in bed for months. A miracle of vitality and his face beaming with the buoyancy of youth."

Dr. J. A. Newman, late police surgeon of the city of Chicago and former house surgeon Jefferson Park Hospital, Chicago, in commenting on the value of Nuxated Iron

said: "This remedy has proven through my own test of it to exert a most powerful influence on the blood, building up the nerves, strengthening the muscles and correcting all the disorders of the blood. The manufacturers are to be congratulated in having given to the public a long felt want, a true tonic, supplying iron in an easily digested and assimilated form. A true strength builder in every sense of the word."

Dr. Schuyler C. Jaques, visiting surgeon of St. Elizabeth's Hospital, New York, was also asked what he thought of Nuxated Iron. In reply Dr. Jaques said:

"I have never before seen such a good medical preparation. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderful, effective remedy."

The next to be quoted was Dr. Ferdinand King, a New York physician and Medical Author, who said:

"I heartily concur in all that Dr. James has said, only in some respects I would go further. Dr. James forgot to mention how foods lose their value by improper methods of cooking. In the most common foods of America the starches, sugars, fat, salts, carotenes, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tipical foods, farina, dogmatic food, are cooked so long that they are lost. Refining processes have removed the iron of Mother Earth from these foodstuffs. The methods of home cooking, by throwing down the waste pipe the water in which the food has been cooked, and the loss of value by improper methods of cooking.
